SUMMARY

Full-Stack Developer with hands-on experience building web applications on a 5-member outsourcing team, working as developer, business analyst and tester. Focused on Next.js, NestJS and PostgreSQL, with an interest in AI tooling such as coding agents and the Model Context Protocol.

EXPERIENCE

Full Stack Developer · Business Analyst · Tester

Freelance Developer | Mar 2025 – Aug 2026

- Contributed as a Full Stack Developer, Business Analyst, and Tester in a 5-member outsourcing team.
- Delivered multiple web applications by gathering requirements, implementing features, and ensuring product quality.

Next.js NestJS PostgreSQL Trello

PROJECTS

ReadAlong Vision (ViRead) — Capstone Project

Full Stack Developer · Team of 6 | Sep 2026 – Nov 2026 | github.com/trancuong3/capstone1

Web platform helping Vietnamese parents read along with their children: OCR-digitized books with human review, read-aloud sessions with speech feedback, and progress reports.

- Integrated Supabase Auth sessions and server-side role-based route guards for Parent and Admin areas.
- Replaced mock services with real FastAPI data across the app; built reading history and progress report screens.
- Completed the child reading experience: retry-safe assessment, robust recording / speech-to-text / text-to-speech lifecycles, and OCR-revision-bound page images.
- Fixed CI workflows that failed on unreachable Ubuntu mirrors, with regression tests.

Next.js TypeScript FastAPI PostgreSQL Supabase Playwright

SKILLS

Frontend	React · Next.js · Redux · Tailwind CSS · HTML/CSS · jQuery · HTML Canvas
Backend	Nest.js · Express · MCP · Spring Boot · Socket.io · AI Agents · RabbitMQ · Redis
Database	PostgreSQL · MongoDB · MySQL · Clickhouse · Elasticsearch · Solr
DevOps & Cloud	Docker · Kubernetes · CI/CD · Git · Linux · Automation
Mobile	Flutter · Android (Kotlin) · React Native

WRITING

Technical blog on AI agents, TypeScript, MCP and web security at linhjr205-portfolio.vercel.app/#blog
